# STEEL DOCKPLATES

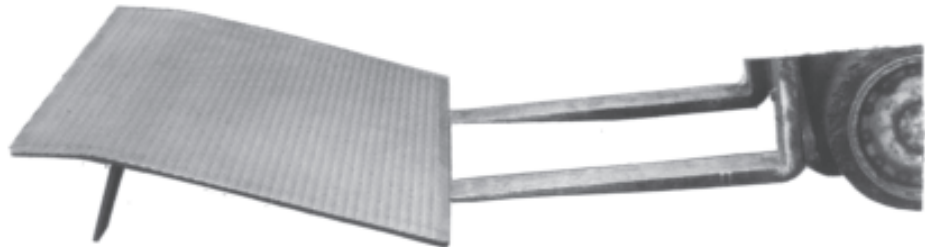

Modern Light Metals, Inc.  
 Coloma, MI 49038  
 Ph. 800-253-1505  
 Fax 269-468-4320

## Type SDP

**Only for use with Fork Trucks.**

These plates are much too heavy to be lifted by hand.

**Note:** Assumes trucks that are coming in are level or higher than dock. With this method of lifting and transporting the dockplate, the forklift driver can remain on the driver's seat at all times. No lifting chains to mess with.

	Model Number	Width	Length	Capacity	Height Diff. @ 10 degree Slope	Deflection in inches	Weight lbs.	Price \$
1/2" Thickness	SDP 6036	60	36	8,100	5	7/16	342	\$ 640
	SDP 6048	60	48	6,000	7	3/4	455	\$ 769

	SDPH 7260	72	60	13,100	9	3/4	982	\$1626

Plates are painted Slate Gray and have orange safety stripes. Equipped with beveled edges and **Lifting Pads**.

**Note:** Steel Dockplates are not recommended for pallet equipment as they come standard with Lifting Pads. Pads lift the leading edge 1/4" off the ground which makes too much of a bump for the small pallet wheels which are found on pallet trucks. Lifting Chains may be added in lieu of the pads for \$ 54.00 extra. (Not Recommended)
