

Quotation for: Steel Truck/Rail Combination Plate SALS

Modern Light Metals, Inc.
Coloma, MI 49038
Ph. 269-468-5041

Board can handle problem trucks that come in below Dock height. Problem is that board sticks into trailer.

Shows trailer that is pulled away from the dock so not so much board goes into trailer. Not really best solution but one that can be used in a pinch.

Best solution is to raise trailer with Wheel Risers. Then a normal board can be used in the normal fashion.

Can Handle trucks as much as

Above

or

Below
